

# Netivot Hatshuva - organization

A system for managing the 'Netivot HaTeshuva' organization. The system includes a database of individuals strengthening their religious observance, a database of Torah scholars (avrechim), and connects them through study partnership meetings. Additionally, the system includes donor and donation databases.

For each of the databases mentioned above, you can add, delete, update, and retrieve information

# Netivot Hatshuva - organization
